How Do You Dissent?

In *I Dissent*, Ruth Bader Ginsburg faced prejudice for many reasons - because she was female, she and her family were Jewish, she was left-handed, she became a working mother, and later on because of her age. All of this made Ruth more determined to express herself, meet her goals, and fight against inequality. What kind of prejudice or unfairness have you witnessed or experienced? Use some of the vocabulary we brainstormed from the book to express why and how you disagreed with this prejudice. How could you show you respectfully dissent like Ruth Bader Ginsburg? How can you change people's minds? Write at least five sentences.
