Crown: An Ode to Your Fresh Cut

Describe a time you went to a hairdresser or barber shop to get your hair cut. What was the name of the place? How did you have your hair cut? What did the inside of the place look like? What were some of the other people having done to their hair? Describe what you felt like after you had your hair cut. Style your writing after the language in the book - use at least three metaphors and five adjectives to explain how you felt after your new haircut. If you have never had your hair cut professionally, explain a haircut you would like to have and what it would look like and how you think it would make you feel. Write at least five sentences.
