

### ***Daniel Finds a Poem: Nature Images***

In *Daniel Finds a Poem* the main character learns about what poetry is from several animals. They encourage him to use his different senses to understand and explore beauty and images in nature. Evoke at least two of your senses (touch, sound, sight, smell, taste) to write a short poem about nature. Your poem should be at least four lines long and express at least two images. Include an illustration below to go with your poem.
